The group comprises six claims and is between the Silver King Coalition and King Consolidated properties. As both of these purchasers are interested in the Consolidated company, it is presumed that the purchase was made for that corporation.

When Clark was asked about the transaction he said that the property was taken over by he and Caffer several weeks ago. He did not know exactly what they would do with it, but said they might incorporate a company and operate the ground.

He said that the property was on the Thynnes Canyon side of the ridge and did not seem disposed to talk much about the deal until they had decided what they propose to do with it.
